PROJECT PROFILE – SUMMERY SHEET

Project Introduction						
1.Project title : Polypropylene-babol						
Sector : industry Sub sector : Chemical						
3.Products / Services : Packing of food, textile, laboratory and medical equipment, industrial and building applications and automotive components						
4.Location: Free zone	Special economic zone ☐ Industrial estate ☑	Main land□				
5. Project description :						
Polymers, depending on the polymerization and the catalyst used, show a regular or irregular mix. Polypropylene is a flexible plastic that can easily be formed and can be molded. The name of the thermal plastic is due to its formation and moldability. Polypropylene is heat-converted to plastic, and when it is cooled it becomes solid. This feature allows the production of particles through injection, rust removal and vacuum formation.						
1. Annual capacity : 200000 tons						
	Project Status					
2. Local / internal raw material access3. Sale :Anticipated export market %	100 %					
4. Construction period 2 year
